

Retracing edwards' trace

Storyteller and author, Brian "Fox" Ellis, will be giving more than two dozen performances that explore the American Indian perspective on Illinois' Bicentennial. Following the route of our Territorial Governor in his unsuccessful efforts at the forced removal of American Indians, Fox will tell both sides of the story, challenging the audience to rethink what they think they know about Illinois' History. With funding from the Illinois Humanities Council Fox will visit more than 2 dozen communities sharing two different programs. There are several private performances at local schools, (and a few dates still open). Here is the list of public programs:

Two Faces of Illinois' History: *SPARKS WILL FLY! In this debate between Territorial Governor Ninian Edwards and Potawatomi Chief Gomo*

&

Black Hawk's Band: A Native View of Illinois History
