QUESTIONS:

Jeff Diqui, jdiqui@imiweb.org or (630) 396-3144

SEMINAR DESCRIPTION:

Tile and Mosaic Restoration:

The seminar will consist of an overview regarding the restoration of tile and mosaics presented through various project case studies such as the Monroe and Noel State Bank Buildings. Topics discussed will include various materials, repair and replacement strategies, installation techniques and methods including cleaning and patching, and lessons learned.

Interior Ornamental Plastering Restoration:

The seminar will consist of an overview of the restoration of interior ornamental plastering presented through various project case studies such as the Chicago Athletic Association Hotel, Union Station, Cook County Hospital and the Old Post Office. Topics discussed will include a background of plastering materials, plaster mold making and materials, repair & replacement strategies, installation techniques & methods, and lessons learned.

MOCK-UPS AND DEMONSTRATIONS:

Tile and Mosaic Restoration:

A demonstration involving setting mosaics into a fresh mortar bed illustrating a restorative patching application.

Interior Ornamental Plastering Restoration:

Mock-ups will be reviewed illustrating the step by step process for creating plaster molds for in-situ conditions along with display of several molds and pieces cast from various completed Chicagoland projects.
